Official Product Datasheet

ANVIZ SECURITY SOLUTIONS

VF30 Pro Terminal

Fingerprint & RFID Card Access Control & Time Attendance

The ANVIZ VF30 Pro is a high-performance standalone access control and biometric time attendance reader. Equipped with a 1GHz CPU, 2.4" TFT LCD screen, fast Wi-Fi/PoE communication, and the signature BioNANO® algorithm, it ensures seamless user authentication and secure door management.

KEY FEATURE HIGHLIGHTS

Ultra-Fast Authentication
Verification speed under 0.5 seconds powered by BioNANO® core biometric algorithm.

Dual Identification Modes
Supports both biometric fingerprint scanning and 125kHz RFID card read capabilities.

Cloud & Network Ready
Built-in TCP/IP, Wi-Fi, and optional PoE for effortless cloud software sync.

Full Access Control Interface
Direct relay output for magnetic locks, door sensors, exit buttons, and tamper alarms.

TECHNICAL SPECIFICATIONS

PARAMETER	SPECIFICATION DETAILS
Brand & Model	ANVIZ VF30 Pro
User Capacity	3,000 Fingerprints / 3,000 Cards
Log Capacity	100,000 Attendance Records
Display Screen	2.4" Color TFT LCD Screen
Communication Interfaces	TCP/IP, Wi-Fi, RS485, USB Host, Mini USB
Access Control Interfaces	Relay Output, Wiegand Out, Door Sensor, Exit Button
Verification Speed	< 0.5 Seconds
Card Reader Options	Standard 125kHz EM RFID (Optional Mifare)
Operating Voltage	DC 12V / Standard PoE
Software Compatibility	CrossChex Cloud & CrossChex Desktop Software
